CHEAPER GAS FOR BARRE

The Gas Company started out to furnish gas to its customers for all domestic purposes at a price of \$1.50 per one thousand cubic feet, with a discount of 25 cents per one thousand feet on all bills that are paid by the 10th of each month for gas consumed the previous month.

The Company adopted the policy from its start to reduce the price of gas as the increase of its business would permit, and in accordance with this policy, and of the generous support given by the citizens, we wish to announce that on and after June 1st, 1905, and until further notice, the price of gas to the ordinary consumer will be reduced 10 cents per one thousand feet, making the net price \$1.15 per one thousand feet if the bills are paid by the 10th of each month for all gas consumed the previous month, and for those consuming gas in large quantities the following graduated scale has been adopted, and the discounts are made from the established price of \$1.50 per one thousand cubic feet:

Any amt. up to and including 3000 cub. ft. per month, disc't 35c, net price \$1.15
Over 3000 up to and including 5000 cub. ft. per month, disc't 40c, net price 1.10
Over 5000 up to and including 10000 cub. ft. per month, disc't 45c, net price 1.05
Over 10000 up to and including 20000 cub. ft. per month, disc't 50c, net price 1.00
Over 20000 up to and including 30000 cub. ft. per month, disc't 55c, net price .95
Over 30000 up to and including 50000 cub. ft. per month, disc't 65c, net price .85

And the Company wish further to announce that after June 1st, 1905, all gas bills that are not paid by the 10th of the month for all gas used during the previous month will be collected at the established price of \$1.50 per one thousand cubic feet.

There is no city anywhere the size of Barre, and but very few larger cities in New England, that sell gas at so low a rate.
